Miners Making Eight and Ten Dollars a Day-No Unusual Rush to the Diggings.

River Press: Yesterday the River Press reporter received a dispatch from a party group of mountains forty-five or fifty miles stated that parties had just arrived from there, having in their possession large quantities of gold dust, which by seeing as much as you can of the world, they had taken from placer dig. but ere you set out either as a tourist, comgings recently discovered by them. They well known merchant at Fort Belknap, and had purchased supplies and returned to their find. Mr. Maginnis, immigration agent of the St. Paul, Minneapolis & Manitoba railway, having arrived in the city last evening, direct from Chinook. a River Press reporter asked the gentleman if there was any foundation in fact for the

story.

"Yes," said Mr. Maginnis, "there is. I saw one of the party who brought the gold dust in. I think his name is Johnson or Jackson, I saw the gold dust. He had several hundred dollars of it in a large buckskin bag. I saw him weigh out and sell a portion of it to Mr. O'Hanlon, agency trader at Fort Belknap. I questioned the man as to where it came from. He told me he took it from placer diggings he and me he took it from placer diggings he and others had discovered in the Bear Paw mountains, some fourteen miles from Chinook. He said his party was making \$8 and over to the man. One man there had made as high as \$90 a day.

Mr. Maginnis was convinced from what he saw and heard that the mountains con-

he saw and heard that the mountains contained rich placer diggings. There was no disposition among the discoverers to conceal the existence of the diggings. The men had what ground they wanted and had no motive in Reeping prospectors out or encouraging their presence. They freely exhibited their gold and gave the locality from which it was taken. They bought supplies and provisions and returned. There was considerable excitement at Chinook over the matter, but as those at the place are new arrivals and know nothing about mining, he apprehends know nothing about mining, he apprehends no stampede to the mines from Chinook. But that gold is being taken out in large amounts in the Bear Paw mountains is too evident to be disputed.

The Artesian Well. Courier: Work on the artesian well has been suspended until new pipe can be procured from the east—probably thirty days. On Thursday the machine passed through the rocky formation at a distance of 380 feet from the surface and encountered a sticky substance, resembling quicksand, which rushed into the hole from every side. Efforts to pump it out were unavailing, and as the easing had been driven into the hole as far as it would go, work had to be stopped until a smaller pipe could be procured and driven to the bottom. A meeting of the directors was called and it was promptly decided to send for the pipe and the necessary new tools.

The wild oats which have been sown year after year are beginning to make a fine showing. The wild rice lately planted has not had time to get above ground. The leading amusement there now is foot racing. An unknown lately walked away with a dollar and the deep regrets of his opponent, who claimed a foul owing to the fact that a hunting dog joined in the race and nipped the unknown a few paces from the wire, which accelerated his movements to such an unnatural degree that he sprang under the wire two and a half feet ahead.

"Untold Agony from Catarrh." "Untold Agony from Catarrh."

Prof. W. Hausner, the famous mesmerist, of Ithaca, N. Y., writes: "Some ten years ago I suffered untold agony from chronic nasal catarrh. My family physician gave me up as such a bad one, that every day, towards sunset, my voice would become so hoarse I could barely speak above a whisper. In the morning my coughing and clearing of my throat would almost strangle me. By the use of Dr. Sage's Catarrh Remedy, in three months, I was a well man, and the cure has been permanent." "Constantly Hawking and Spitting."

THOMAS J. RUSHING, Esq., 1202 Pine Street, St. Louis, Mo., writes: "I was a great sufferer from catarrh for three years. At times I could hardly breathe, and was constantly hawking and spitting, and for the last eight months could not breathe through the nostrils. I thought nothing could be done for me. Luckily, I was advised to try Dr. Sage's Catarrh Remedy, and I am now a weil man. I believe it to be the only sure remedy for catarrh now manufactured, and one has only to give it a fair trial to experience astounding results and a permanent cure."
